

## Joseph and Anna Svihovec Descendants

*Numerals designate each of the American generations. #1 would be Frank and Barbara Svihovec who arrived in America with their nine sons in the 1886-1893 period. #2 would be those nine sons. This list is only of the descendants of one of those nine sons – Joseph, and his wife, Anna. They had two children and one, Tony, died as a child. Only their daughter, Alice, was left to carry on the line. She was generation #3.*

*In the case of couples, the direct Svihovec descendant is listed first. Descendants who are still minors are noted in parentheses after their parents. Those who are 18 and older are listed separately even if still living at home.*
